The Garden Retreat Max

The Garden Retreat

The Garden Retreat products are available with a choice of panels that allow windows or wood or door panel elements to be added to perfectly suit your requirements. Please contact Leisure Buildings for available options. Pictured above is the Garden Retreat Max product.

This product makes an ideal room accommodating a table and chairs or a sofa bed. This is the ideal summer cottage kitchen, and has been a Leisure Buildings Scotland best seller thanks to it's 44mm timber construction which makes it suitable for our cold northern climate!
